SUBJECT: BLUE LANTERN LEVEL 3: POST-SHIPMENT END-USE CHECK
ON LICENSE 050193101

REF: 2006 BLUE LANTERN GUIDEBOOK

11. This is an Action Request. See paragraphs 2-4.

12. The Department's Office of Defense Trade Controls Compliance (PM/DTCC) requests Post's assistance in conducting a post-shipment check on license 050193101 for the export of International Traffic in Arms (ITAR)-controlled turbine engine lubricating oil tanks to Australia. Post is requested to complete this Blue Lantern inquiry within 45 days. Lack of response to a Blue Lantern inquiry will affect pending and future licenses involving parties to this license.

13. Reason for request: Subject application 050193101 is the third in a series of license request from applicant to export oil tanks to the Australian Department of Defense (ADOD) via Milspec Services Pty Ltd (foreign intermediate consignee) and Safe Air Ltd (foreign consignee). License 050146824 originally approved the export of five tanks. License 050169857 covered three replacement tanks because three of the five tanks from the original shipment were claimed by Safe Air to be damaged beyond repair. The subject license requested export of another three tanks to replace three of the previously shipped tanks that are again claimed to be in non-repairable condition.

14. ACTION: The Department requests that Post make inquiries with Safe Air Ltd. in order to: (1) verify that eleven tanks were received; (2) verify the claim that six were in non-repairable condition; (3) verify if the tanks have been delivered to the ADOD; and (4) determine the disposition of the non-repairable tanks.

END ACTION.
